5.6.2 Consultant Project Experience

a. Project Name:

William Monroe High School and Middle School Renovation

b. Project Owner

1. Point of Contact
2. Address
3. Phone Number
4. Email Address

*Brian Dalton
254 Monroe Drive
Stanardsville, Virginia 22973*

**c. Brief Description of Project
+ Gross Square Footage**

Greene County Public Schools decided to renovate their high school and middle school and revitalize their learning spaces with new functional furniture that would take them well into the new 21st century. They hired CSE to work with them on everything from concepts to space planning and ultimately had us furnish the entire project with new VS America furniture. We worked with a team of architects, designers, school personnel and manufacturers to design the perfect solution while being mindful of their existing building restrictions. The result is a bright, open facility full of flexible, functional ergonomic furniture that can adapt with the building well into the future as learning styles continue to evolve.

d. Total Construction Amount

1. Number of Change Orders:
2. Value of Change Orders:
3. Explanation of Change Orders:
4. Year of Project Completed:
5. Construction Duration
- *Original Scheduled Completion Date*
- *Actual Completion Date*
- *Explanation of Any Delays*

*1
\$17,000.00
Additional Furniture Needs and Installation Restrictions
2018
2016-2018*

*Total amount of FF&E Contracts Written to CSE For These Projects:
Approximately \$1,120,000.00*

**e. Names + Roles of Team Members
Who Worked on the Project**

*David Hawkins FF&E Specialist, Salesman and Provider of Product
Steve Hawkins Lead Project Manager and On Site Foreman
Scott Hawkins Shipment Coordinator and Inside Project Manager
Robert Hunter Installation Team Leader and Manager of Installation*
